Why Kidney Cancer and Healthy life style Walk?

The Month of March according to CANSA is a Kidney Cancer and Healthy Lifestyle Awareness Month. Mrs Pearl Lebuso as a community builder was once mentored a young guy who had kidney cancer but unfortunately the boy passed on in 2012. The walk will also be in memory of that boy and to raise more awareness within our communities, for each person diagnosed with kidney cancer goes through the shock of being told they have the disease.

It is a difficult experience. When cancer strikes, it hits the whole family but the aim is to say to our communities after the shock of diagnosis, it's time to start healing. One should not let their emotions and cancer diagnosis destroy them, their home life nor relations with the important people in their lives.
