

# HIV AND AIDS WORKPLACE PROGRAMME

## EMPLOYEE HEALTH AND WELLNESS

- The impact of HIV and AIDS knows no limits, race, creed, age or place – it does not discriminate.
- Workers / employees are not immune to HIV and AIDS, they are also infected or affected.
- HIV and AIDS is regarded as a behavioral problem.
- Let us not die from ignorance and denial.
- Let us do something, let us stand up.

### The Wellness Programme provides the following services:

- Assists employees with HIV & AIDS testing
  - Employees are offered pre-test counseling before the test to prepare them emotionally and psychologically for the test.
  - All tests are done by professionals.
  - After the test, employees receive post-test counseling to assist him or her to deal with the positive or negative result.
- Provides HIV testing through the Occupational Health Clinic (OHC) or referral to external providers such as New Start.
- Treatment for STI infections, TB and HIV and AIDS (ARV's).
- Continuous counseling and support to employees and their families.
